

## Guideline Affiliations APH research institute

Amsterdam, December 2016

We ask all VUmc, AMC, VU and UvA colleagues of the Amsterdam Public Health research institute to add 'Amsterdam Public Health research institute' (in Dutch publications: 'Amsterdam Public Health onderzoeksinstituut') as additional affiliation in publications as of January 1<sup>st</sup>, 2017. This will improve our brand awareness and recognition of the scientific and societal efforts of Amsterdam Public Health. When the guidelines of the journal do not allow including Amsterdam Public Health in the affiliation, please mention the embedding of the research within the research institute in the acknowledgements. The exact order of institution, department and research institute is not important to us because of differences in existing practices. We provide some examples below.

### PUBLICATIONS:

Affiliation: Amsterdam Public Health research institute

Institution	Affiliation
VUmc	Amsterdam Public Health research institute, Department of Epidemiology and Biostatistics, VU University Medical Center, Amsterdam, the Netherlands <i>or</i> Department of Epidemiology and Biostatistics, Amsterdam Public Health research institute, VU University Medical Center, Amsterdam, the Netherlands
AMC	Academic Medical Center, University of Amsterdam, Department: Clinical Epidemiology, Biostatistics and Bioinformatics, Amsterdam Public Health research institute, Amsterdam, The Netherlands
VU	Amsterdam Public Health research institute, Department of Clinical Psychology, Faculty of Behavioral and Movement Sciences, Vrije Universiteit Amsterdam, the Netherlands <i>or</i> Department of Clinical Psychology, Amsterdam Public Health research institute, Vrije Universiteit Amsterdam, the Netherlands
UvA	University of Amsterdam, Faculty/ Department: (...), Amsterdam Public Health research institute, Amsterdam, the Netherlands

### THESES:
